

## PRODUCT IDENTIFICATION

How to identify your Powrtouch serial number & which model Powrtouch you have

On the circular end plate of the motor you will find your Powrtouch serial number either on a sticker or a number etched into the metalwork

### Original Powrtouch Models

The first digit indicates the model number (see below), the second series of digits are a sequential number unique to your Powrtouch and enables us to tell the age of the mover.

Powrtouch Single Axle (Model 1)	PWRT/1/XXXXXX
Powrtouch Euro Mover (Model 2)	PWRT/2/XXXXXX
Powrtouch Heavy Duty Mover (Model 3)	PWRT/3/XXXXXX
Powrtouch Standard Twin Axle (Model 4)	PWRT/4/XXXXXX
Powrtouch Australian Mover (Model 5)	PWRT/5/XXXXXX
Powrtouch All Wheel Drive (Model 6)	PWRT/6/XXXXXX
Powrcompact Single Axle (Model 7)	PWRT/7/XXXXXX

## Powrtouch Evolution Models

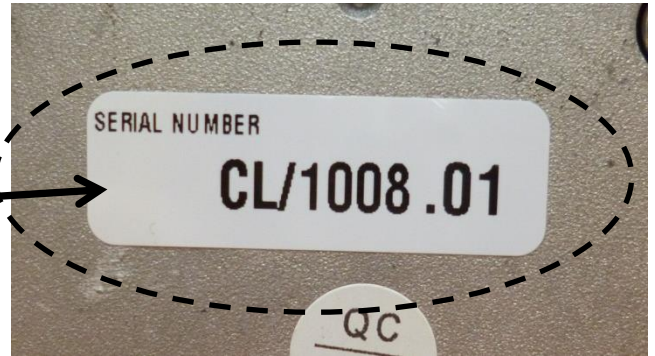

On the Powrtouch Evolution your serial number will start EVA (automatic engagement) or EVM (manual engagement). The digits following this are sequential numbers unique to your Powrtouch and enables us to tell the age of the Powrtouch.

Your full serial number will also have an extra Letter (not shown on the sticker) to indicate whether your Powrtouch is Single (S), Twin (T) or All Wheel Drive (A)

Powrtouch Evolution Auto Single	EVA/S/XXXXXX
Powrtouch Evolution Manual Single	EVM/S/XXXXXX
Powrtouch Evolution Auto Twin	EVA/T/XXXXXX
Powrtouch Evolution Manual Twin	EVM/T/XXXXXX
Powrtouch Evolution Auto All Wheel Drive	EVA/A/XXXXXX
Powrtouch Evolution Manual All Wheel Drive	EVM/A/XXXXXX
